Subject: FW: Missouri Electric Works: Third Five-Year Review Report completed

Dan,

Are there any boring logs for any of the soil samples taken by Seagull Environmental Technologies? Some of the samples go to 4 – 5 feet in depth.

Thanks,

Dale

Subject: Missouri Electric Works: Third Five-Year Review Report completed

Brenda, David,

EPA's third Five-Year Review Report for the MEW Superfund site was recently completed, and a copy of this document was mailed to the public library in Cape Girardeau (our local document repository for the site) on July 31. As this document discusses the results of the samples EPA collected earlier this year from both of your properties, I felt it was appropriate to notify you both of this document's availability as soon as possible. Please let me know if you have any difficulty accessing this document, or if you have any questions on it.

Sincerely,

Daniel R. Gravatt, PG
